5th December 2016

Supplement Submission against the proposed expansion of the Martins Creek Quarry

We have on average approximately 20 people stay here over any given week, that is 80 people per month 960 people per year.

We are deeply concerned that if the Martins Creek Quarry Expansion goes ahead, how many of these people will stay somewhere else because of the noise of the trucks and the early start of them travelling through our town.

Many of the people who stay here attend weddings in the area. Some of these weddings are on during the week. There are 4 wedding function centres in our area -

- Total Homestead
- Mindaribba House
- Wallalong House
- Woodville Church and Reception Centre

We have to wonder why the trucks have to start so early and wake everyone up. No other trades are allowed to start before 7am if noise is involved

Our Café business has also fallen over the past few years due to the many trucks that travel past our building and the amount of dirt and dust they leave behind

We hope you will take into consideration our submission when making your decision

Regards

Moira and Kevin Hawtin
