To whom it may concern,

I would like to formally show my support for the Martins Creek Quarry Expansion Project (SSD 6612).

As an employee of a labour hire Company who works for Daracon, this project is important to continue to employ many of us who might not work directly for Daracon, but would be out of work if they did not have the work to sustain subcontractors.

Martins Creek quarry produces some of the highest quality construction materials used in the construction industry and if we were to lose this source, this would have a flow on effect through all levels of the construction supply chain both in terms of costs and also the supply availability of materials.

I have not made any reportable political donations.

Yours faithfully,

Dom Maloney
