To whom it may concern,

I would like to formally show my support for the Martins Creek Quarry Expansion Project (SSD 6612).

As an employee of Daracon, this project is important to our company and to the 800 people currently employed by Daracon. We also employ many subcontractors that would also be impacted by this decision.

Martins Creek quarry produces some of the highest quality construction materials used in the construction industry and if we were to lose this source, this would have a flow on effect through all levels of the construction supply chain both in terms of costs and also the supply availability of materials.

I have not made any reportable political donations.

Yours faithfully,

A handwritten signature in dark ink, appearing to be 'Garry', with a stylized flourish at the end.

Garry
