Attn, Director Resource Assessments

I support the proposed Martins Creek Quarry Expansion Project - Application No. SSD 6612.

As an employee to Daracon as a crusher, the expansion project is important to me as we risk losing jobs should the expansion not proceed. Daracon currently employs over 800 staff who rely on the supply of construction materials from the quarry to the projects. I fear our jobs would be at risk should the expansion not go ahead, especially mine as a quarry employee.

Daracon employees are not the only people likely to be affected by this outcome though. Many other local companies, both small and large, rely on the materials supplied from Martins Creek Quarry, or they rely on the stability that the competition within the quarries provides. Should they lose one of the quarries, the impact on competition would be significant and would affect the cost of these materials.

I support the Martins Creek Quarry Expansion Project

I have not made a reportable political donation.

Thank you,

P.POTTER
