Martins Creek Quarry Project SSD 14_6612 - Letter of Support

Please do not publish my personal information.

I am pleased to provide support for the Martins Creek Quarry Project.

I understand the EIS comprehensively addresses the Secretaries Environmental Assessment Requirements.

The proponent, Daracon, employs over 800 people, and is a significant employer of people from within the Hunter Region.

I am a local resident and I work for a local contractor who uses products from the Martins Creek Quarry in road construction for the Dungog Shire Council and other surrounding councils. In addition, we also supply local landholders with quarry products for road works. We also supply products from the Martins Creek Quarry for community infrastructure works.

We were also supporters of Daracon when Daracon provided discounted product from Martins Creek Quarry to local landholders to repair roads following the storms of 2015.

Companies and drivers who transport from Martins Creek Quarry have signed the Code of Conduct highlighting our efforts and commitments to address community concerns on the front foot.

I support of this proposal as it provides local opportunities for myself and others.

I have not made any political donations.

Yours sincerely,
