To Whom it May Concern,

I support Martins Creek Quarry Expansion (SSD 6612).

I have worked for Daracon Group for almost 12 years and the Martins Creek Quarry has provided myself and my family, with job security and stable employment. The local stemming industry that Martins Creek Quarry sustains is invaluable to several DARACON employees, including myself.

With the current downturn in the mining industry, this quarry is able to provide stability within an otherwise difficult industry. If the Quarry didn't continue, the subsequent rise of cost in stemming operations for remaining organisations will in turn have a negative effect on other workers within the stemming field, not just those of Martins Creek Quarry or Daracon Group. For this reason I fully support the proposal.

I have not made any reportable political donations.

Yours faithfully,

Brian Forth
