Leslie Wilks
35 Tindale St
MUSWELLBROOK NSW 2333

To the Department of Planning,

As part of Daracon's Coal Services Transport Division, I support the Martins Creek Quarry Project (SSD 6612).

I have been working at Daracon for over 4 years. As a Stemming Truck Driver, I am part of a specialised team that delivers stemming aggregate from the Martins Creek Quarry to Hunter mines.

I am in favour of the Martins Creek Quarry Project as it offers jobs and supports other industry within the region by supplying local materials. This helps to keep the Hunter's financial and employment status in good health.

I have not made any reportable political donations.

Regards,
