Martins Creek Quarry Project SSD 14_6612 – Letter of Support

We at Trylow Plant Hire are avid supporters of the Martins Creek Quarry.

The quarry provides many local workers with employment, therefore boosting the economy of several communities and organisations. The quarry is an invaluable asset to many organisations, especially those in the Hunter region.

Martins Creek Quarry is a major supplier of product for both the housing development industry and construction industry. The quarry provides for council road maintenance in many areas providing employment and economic flow benefits for many local communities.

Once again, we would like to express our support for the Martins Creek Quarry.

We have not made a reportable political donation.

Kind regards,

Thomas Mc Girr
