

25 August 2014

Dear [REDACTED]

## Notification of potential noise wall changes

The NSW and Federal Governments, Transurban and the Westlink M7 shareholders are planning to construct and operate a tolled motorway linking the M1 Pacific Motorway at Wahroonga to the Hills M2 Motorway at West Pennant Hills, called NorthConnex.

The Environmental Impact Statement (EIS) for NorthConnex is currently on public exhibition until 12 September 2014.

The NorthConnex project team would like to advise that if the project is approved, the noise walls nearby your property [REDACTED] West Pennant Hills NSW 2125 may potentially require relocation to allow for construction work to take place.

The project team is committed to minimising the impact of construction on local residents and would implement mitigation measures to minimise disruptions. The relocation of the noise wall would be temporary during construction. The details of the temporary relocation and features of the permanent noise walls are subject to detailed design and further assessment.

During the EIS public exhibition, you are invited to make a submission on the project to the NSW Department of Planning and Environment until Friday 12 September 2014.

For more information or to view the EIS documents online please visit [www.northconnex.com.au](http://www.northconnex.com.au). Alternatively, if you would like to speak with a member of the project team call **1800 997 057** (free call) or email [enquiries@northconnex.com.au](mailto:enquiries@northconnex.com.au).

Yours sincerely

NorthConnex Project Team
