SYDNEY NSW 2001

NORTHCONEX APPLICATION NUMBER: SSI 13 6136

Dear Madam/Sir

I wish to object to the project as described in the EIS and state that my letter is a "submission".

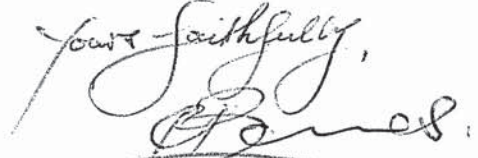

My objection is solely based on health

concerns.

The risk of contracting various forms of cancer, particularly lung cancer, together with the risk of stroke from the minute particulate matter from pollution that will originate in this long tunnel.

If the M5 tunnel has now being filtered, why would the longer Northconex remain unfiltered?

My overall health and well-being are of the utmost importance to me.

Yours faithfully,  
  
JOHN BARNES
