Major Projects Assessment

GPO Box 39

Sydney NSW 2001

NORTHConnex APPLICATION N° SSI 13-6136

I enclose my submission in response to the exhibition of the EIS for NorthConnex

Firstly I would like to state I object to the project as described in the EIS

I am extremely concerned about the following issues and request that these be considered by NorthConnex and the Dept of Planning in regard to the NorthConnex tunnel

1. Placement of the northern Ventilation Stack in Wahroonga near schools, hospitals and densely populated residential areas
2. Health risks caused by air pollutants as outlined by numerous studies

To address my concern I request the following

1. Due to health concerns that the Dept of Planning not approve the project in its current form
2. That alternative options to ease the transport congestion on Pennant Hills Road be considered such as an orbital surface route and the Equilibria Proposal for an extension of the M1-M2 tunnel.
