NorthConnex Application Number: SSI 13\_6136

Please find below my submission in response to the exhibition of the EIS for NorthConnex.

Firstly I would like to state **we object to the project** as described in the EIS

We have great concern regarding the the following issues and request that these be considered by NorthConnex and Department of Planning , in regards to the NothConnex Tunnel . My concern is about :

1. Placement of the northern ventilation stack in the centre of densely populated residential area in Wahroonga ,where close to 10,000 school children will be exposed , as well as , multiple aged aged care facilities ,hospitals and businesses and homes
1. Due to significant health concerns of the current project design , I request the Department of Planning does not approve the project in it's current form .
2. I also request that alternative options to ease congestion on Pennant Hills Road be considered such an orbital surface route .
