I am a great grandmother with 3 great grandchildren living in Wairoonga, some 25 metres from the proposed exhaust stack of the NorthConnex tunnel project.

They are aged between 5 and 2 years. Two are twins who were premature babies and are therefore more vulnerable to respiratory disease from tunnel exhaust plumes.

I have read the submission on the EIS by the CAPS group and Kuringgai Council and fully support the issues raised by them.

Yours faithfully

Barbara Bernadette Johnson
