NorthConnex Application Number: SSI 13\_6136

Please find below my submission in response to the exhibition of the EIS for the the NorthConnex.

I have a very high level of concern regarding the placement of the unfiltered northern ventilation stack in the centre of such a densely populated residential area in Wahroonga where 9300 school children will be exposed as well as multiple aged care facilities , hospitals, businesses & home.

As a retired Industrial Chemist (ASTC Chemistry, FRACI) I am particularly concerned for the health of my five young grandchildren who live in the area & my own health for that matter.

To address my concerns I request that the following action is undertaken:

Because of the significant health concerns of the current project design, I request that Department of Planning does not approve the project in it's current form.

Sincerely yours,

A handwritten signature in black ink, appearing to be 'Kenneth Jones', written over a horizontal line. The signature is stylized with a large loop and a crossbar.

Kenneth Jones.
