Dear Sir

NORTHCONNEX PROJECT

We the occupants of the above address are very concerned about the construction of the proposed West Connex tunnel which will affect the residents of West Pennant Hills.

In particular our concerns are the location of the southern stack, filtration, air quality monitoring, heavy trucks, and the use of local roads. Oaks Road M2 is a transport hub for buses therefore parking of vehicles along the route of the trucks would be extremely congested.

Yours faithfully

Eric and Vivien Wagstaff
