NorthConnex Application Number: SSI 13_6136

This is my submission in response to the exhibition of the EIS for NorthConnex.

Firstly I would like to state I object to the project as described in the EIS.

I have a high level of concern regarding the following issue and request that this be considered by NorthConnex and the Department of Planning. In regards to the NorthConnex tunnel, I am concerned about:

I am concerned about the large amount of diesel emissions which will be emitted from the NorthConnex tunnel, as it is being designed for heavy freight to bypass Pennant Hills Rd. Diesel emissions have been classified as carcinogenic by the World Health Organisation, and also contain a larger number of fine particles which penetrate deep into lung tissue and remain there causing inflammation.

To address my concerns I request that:

An alternative transport options to ease congestion on Pennant Hills Rd be considered such as an orbital surface route
