NorthConnex Application Number: SSI 13_6136

Please find below my submission in response to the exhibition of the EIS for NorthConnex.

Firstly I would like to state I object to the project as described in the EIS.

I have a high level of concern regarding the following issues and request that these be considered by NorthConnex and the Department of Planning. In regards to the NorthConnex tunnel, I am concerned about:

1. I am concerned about the air quality within the tunnel which is shown in the EIS to have exceedences above standards for pollutants such as NO₂, and haze from particulate matter at the ends of the tunnel.

To address my concerns I request that the following actions are undertaken:

1. An independent options assessment process should be undertaken to assess alternative locations for the ventilation stack and portals.
2. The air quality and human health impact assessment need to be revised to address the issues raised above.
