September 12th '14.

I object strongly to the placing of the Northern Ventilation Smokestack in the centre of a densely populated area.

Nine thousand & three hundred children from schools will be exposed to the fumes from this stack, as well as homes, hospitals, aged-care residences and businesses. I believe the smoke-stack could be placed further along the tunnel. This would cost more but is the only possibility for the tunnel. People's lives should not be put in danger by this rash & uncaring plan. I cannot understand how this proposal was put forward in the first place & hope that either the stack can be moved away from people & that an orbital surface route can be planned to ease congestion on the Pennant Hills Road.

Yours faithfully,
 Ursula Laver
