I am writing to support you with the proposed NorthConnex tunnel from Wahroonga to Beecroft, especially in the context of its design + depth + number of ventilators. I was also impressed by the speakers regarding "Air Quality".

My very serious concern regards a young Wahroonga man who is incessantly lobby-ing locally + at your meetings to raise the level of the tunnel close to the road surface.

It seems mischievous to me, + self-indulgent, + I heard Duncan Gay say on IGB that the idea is ridiculous + impractical.

Please do not change the depth of the tunnel. People who will be living under it are happy about its depth as proposed, + are terrified that if the depth is shortened, their homes will crack, + the noise from the tunnel would render their lives intolerable leading to illness.
Sincerely, Joan Ludovici (private).
