Dominic Crinnion
Senior Planning Officer
Infrastructure Projects

domininc.crinnion@planning.nsw.gov.au

Dear Mr Crinnion

NorthConnex EIS public consultation. SSI – 6136.

Thank you for the opportunity to comment on the Environmental Impact Statement for the NorthConnex proposal.

Council congratulates the government for developing the project to the point where an EIS is available for comment. Council supports the project and is keen to work with the proponent and government agencies to ensure a balance is struck between the need to deliver the project expeditiously and managing local adverse impacts which are bound to occur.

Attached is Council's submission which includes some background information. Council's requests or actions are presented in bold text at the end of each item.

Council notes that Hornsby Quarry is one of six spoil sites identified in the EIS and Council welcomes the opportunity to discuss such options with any prospective contractor or government agency.

Please feel free to contact me on 9847 6524 if you require further information.

Yours faithfully

Lawrence Nagy
Manager
Traffic and Road Safety

Enclosed – Hornsby Shire Council submission
