Dear Madam

At Ploymus College Redevelopment 4/1 Upper Pitt St
(SSR 8669)
I wish to state my objection to the development
for a number of reasons.

This school has been overfunded by government
to the point where every year it has to
undertake major capital works but this proposal
absolutely takes the edge.

At present the junior high school
playground is at the base of the building
and the noise is relatively contained. The
proposal to move this playground onto the
roof of a new high building has the
potential of annoying about half the
residents of Ploymus. The noise will be
horrific.

The prospect of five years of massive
destruction and reconstruction on Upper Pitt St
is a horror story: endless trucks, tradesmen
vehicles etc on this narrow road with
parking on both sides is ridiculous.

This area will not be worth living in.
