Bruce Stafford Architects Suite 5 Level 2 24 Bay St DOUBLE BAY NSW 2028

Dear Sir/Madam

Development Consent

Application N	No: DA 629/2017
Property:	23 Victoria Road BELLEVUE HILL 2023
Applicant:	Bruce Stafford Architects
Proposal:	The demolition of the existing dwelling, pool and ancillary
	outbuildings, and the subdivision of 23 Victoria Road,
	Bellevue Hill (Lot 2 in DP 9005) into 3 Lots

Please find attached your development consent including conditions, notes, stamped plans and additional information. Your conditions have been structured to outline the regulatory frame-work at each stage leading to the occupation and use of the completed development.

These conditions will guide you through our requirements. You must also check other Commonwealth and NSW Acts and Regulations that may apply to the demolition, building, subdivision and the use of developments, including but not limited to:

- Workcover NSW (work safety and asbestos requirements)
- Sydney Water (provision of water and sewer services)
- Energy and Gas suppliers (provision of energy services)
- Department of Fair Trading (advice about builders and licensing)
- Building Professionals Board (advice about private certifiers)
- Roads and Traffic Authority (works on state roads only)
- NSW Police Service's Traffic Sergeant (temporary road closures only)
- Human Rights and Equal Opportunity Commission (access issues)

Refer to the NSW Government's homepage (<u>www.nsw.gov.au</u>) or specific consent conditions for further advice.

Where there is an upgrade or connection to Council's footpaths, roads and public drainage systems, you will need further approval from Council before you undertake such works. You may also need approval for hoarding and construction and work zones. Avoid delays by addressing these issues early.

The following guide is provided in good faith to assist applicants to understand the broad process. Not every statutory step may apply or has been covered.

ABN 32 218 483 245

Redleaf Council Chambers 536 New South Head Road Double Bay NSW 2028

Correspondence to General Manager PO Box 61 Double Bay NSW 1360 DX 3607 Double Bay records@woollahra.nsw.gov.au www.woollahra.nsw.gov.au

Telephone: 61 2 9391 7000 Facsimile: 61 2 9391 7044

Council can also issue Construction Certificates and act as your PCA at competitive rates. Visit <u>http://www.woollahra.nsw.gov.au/building_and_development/building</u> or speak to our Customer Service Officers if you have any further questions.

If you have any questions regarding the consent, contact our Assessment Officer, Ms T Ward, on 9391-7016 between 8.30am and 11.00am Monday to Friday.

Yours sincerely,

Team Leader – Development Control per:

Development Consent No. 629/2017/1

Notice of Determination

Section 81(1)(a) of the Environmental Planning and Assessment Act 1979 ("the Act") Clause 100 of the Environmental Planning and Assessment Regulation 2000 ("the Regulation")

Applicant's Name

Bruce Stafford Architects

Date of Determination

Eleanor Smith

Land to which this applies

23 Victoria Road BELLEVUE HILL

Proposal

The demolition of the existing dwelling, pool and ancillary outbuildings, and the subdivision of 23 Victoria Road, Bellevue Hill (Lot 2 in DP 9005) into 3 Lots

Imposition of Conditions

Subject to the provisions of section 80A of the Act, this consent has been granted subject to conditions annexed to this consent.

Period of Consent

Subject to Section 83 of the Act, this consent becomes effective and operates from 23 April 2018 (other than where deferred commencement condition(s) have been imposed under Section 80(3)). The consent lapses five years after the date of consent in accordance with Section 95 of the Act.

Review of determination and right of appeal

Within 6 months after the date of determination, a review of this determination can be made under section 82A of the Act or an appeal to the Land and Environment Court can be made pursuant to the provisions of Part 4, Division 8 of the Act.

Plans endorsed by the consent authority

Copies of relevant plans endorsed by the consent authority and as referenced by conditions of consent are annexed.

Endorsed for and on behalf of Woollahra Municipal Council

4 8 S

Eleanor Smith Team Leader – Development Control per:

23 April 2018 Date of endorsement

A. General Conditions

A.1 Conditions

Consent is granted subject to the following conditions imposed pursuant to section 80 of the Environmental Planning & Assessment Act 1979 ("the *Act*") and the provisions of the Environmental Planning and Assessment Regulation 2000 ("the *Regulation*") such conditions being reasonable and relevant to the development as assessed pursuant to section 79C of the Act. Standard Condition: A1 (Autotext AA1)

A.2 Definitions

Unless specified otherwise, words have the same meaning as defined by the *Act*, the *Regulation* and the *Interpretation Act* 1987 as in force at the date of consent.

Applicant means the applicant for this Consent.

Approved Plans mean the plans endorsed by Council referenced by this consent as amended by conditions of this consent.

AS or *AS/NZS* means Australian Standard® or Australian/New Zealand Standard®, respectively, published by Standards Australia International Limited.

BCA means the Building Code of Australia as published by the Australian Building Codes Board as in force at the date of issue of any *Construction Certificate*. **Council** means Woollahra Municipal Council

Court means the Land and Environment Court

Local native plants means species of native plant endemic to Sydney's eastern suburbs (see the brochure titled "Local Native Plants for Sydney's Eastern Suburbs published by the Southern Sydney Regional Organisation of Councils).

Stormwater Drainage System means all works, facilities and documentation relating to:

- The collection of stormwater,
- The retention of stormwater,
- The reuse of stormwater,
- The detention of stormwater,
- The controlled release of stormwater; and
- Connections to easements and public stormwater systems.

Owner means the owner of the site and successors in title to the site.

Owner Builder has the same meaning as in the Home Building Act 1989.

PCA means the Principal Certifying Authority under the Act.

Principal Contractor has the same meaning as in the *Act* or where a *principal contractor* has not been appointed by the *owner* of the land being developed *Principal Contractor* means the *owner* of the land being developed.

Professional Engineer has the same meaning as in the BCA.

Public Place has the same meaning as in the Local Government Act 1993.

Road has the same meaning as in the *Roads Act* 1993.

SEE means the final version of the Statement of Environmental Effects lodged by the *Applicant*.

Site means the land being developed subject to this consent.

WLEP 1995 means Woollahra Local Environmental Plan 1995

WLEP 2014 means Woollahra Local Environmental Plan 2014

Work for the purposes of this consent means:

- the use of land in connection with development,
- the subdivision of land,
- the erection of a building,
- the carrying out of any work,
- the use of any site crane, machine, article, material, or thing,
- the storage of waste, materials, site crane, machine, article, material, or thing,
- the demolition of a building,
- the piling, piering, cutting, boring, drilling, rock breaking, rock sawing or excavation of land,
- the delivery to or removal from the *site* of any machine, article, material, or thing, or
- the occupation of the *site* by any person unless authorised by an *occupation certificate*.
- Note: Interpretation of Conditions Where there is any need to obtain an interpretation of the intent of any condition this must be done in writing to Council and confirmed in writing by Council.

Standard Condition: A2 (Autotext AA2)

A.3 Approved Plans and supporting documents

Those with the benefit of this consent must carry out all work and maintain the use and works in accordance with both the architectural plans to which is affixed a Council stamp "Approved" and supporting documents listed below as submitted by the Applicant unless modified by any following condition. Where the plans relate to alterations or additions only those works shown in colour or highlighted are approved.

Reference	Description	Author/Drawn	Date(s)
DA 01 (Rev B)	Proposed Subdivision Plan	Bruce Stafford Architects	02/03/2018
60105	Plan of Proposed Subdivision	Paul Cechellero	18/12/2017
	Tree Assessment Schedule	Rain Tree Consulting	03/2018

Note: Warning to Accredited Certifiers – You should always insist on sighting the original Council stamped approved plans. You should not rely solely upon the plan reference numbers in this condition. Should the applicant not be able to provide you with the original copy Council will provide you with access to its files so you may review our original copy of the approved plan.

Note: These plans and supporting documentation may be subject to conditions imposed under section 80A(1)(g) of the *Act* modifying or amending the development (refer to conditions which must be satisfied prior to the issue of any *Construction Certificate*.) Standard Condition: A5 (Autotext AA5)

A.4 Development Consent is not granted in relation to these matters

This approval does not give consent to the following:

- a) The two proposed vehicular crossings to Victoria Road and Rose Bay Avenue. Note: Provision of any vehicular crossing will be assessed with future DAs for the development of the subdivided lots.
- b) The two proposed pedestrian access stairs over Council's road reserve to Rose Bay Avenue.
- c) The existing driveway access through Lot 21 of DP 149532 as the subject site is not benefited by a Right of Way through Lot 21.

A separate Development Consent or Complying Development Certificate and Part 4A Certificates, as appropriate, will need to be obtained prior to such development work commencing.

Standard Condition: A9 (Autotext AA9)

A.5 Tree Preservation & Approved Landscaping Works

All landscape works shall be undertaken in accordance with the approved landscape plan, arborist report, tree management plan and transplant method statement as applicable.

a) The following trees shall be retained

• Trees on Private Land

Species	Location	Dimension (metres)
Ficus rubiginosa (Port Jackson	Adjacent to SW corner	28 x 26
		Ficus rubiginosa (Port Jackson Adjacent to SW corner

• Trees on Council Land

Council Ref No.	Species	Location	Dimension (metres)	Tree Value
13	<i>Ficus rubiginosa</i> (Port Jackson Fig)	South side on entry driveway	9 x 15	Not assess

Note: The tree/s required to be retained should appear coloured green on the construction certificate plans.

b) The following trees shall be pruned in accordance with *Australian Standard Pruning of Amenity Trees* (AS 4373) and *Workcover NSW Code of Practice Amenity Tree Industry*, to the minimum extent necessary to provide clearance to the new development:

Council Ref No.	Species	Location	Approved pruning (extent of pruning)
13	<i>Ficus rubiginosa</i> (Port Jackson Fig)	South side on entry driveway	Remove lowest first order branch over driveway to

	facilitate heavy
	vehicle access

Note: The tree/s required to be pruned should appear coloured blue on the construction certificate plans.

B. Conditions which must be satisfied prior to the demolition of any building or construction

B.1 Establishment of Tree Protection Zone (TPZ) Fence

Tree Protection Zones shall be established around all trees to be retained and in accordance with Section 4 of the *Australian Standard Protection of Trees on Development Sites* (AS 4970- 2009). Tree protection zones must also comply with the following requirements;

a) Tree Protection Zone areas

Council Ref No.	Species	Tree Location	Fence Radius from Centre of Trunk (Metres)
25	<i>Ficus rubiginosa</i> (Port Jackson Fig)	Adjacent to SW corner of residence	6m – Fence is to be aligned with boundary of
			existing driveway

- b) Tree Protection Zones shall be fenced with a 1.8 metre high chainmesh or weldmesh fence and secured to restrict access. The fence shall be established prior to any materials being bought onto the site and before the commencement of works including demolition. The area within the fence shall be mulched and maintained to a depth of 75mm. The soil within the TPZ shall be kept in a moist condition for the duration of the construction works. Unless approved by the site arborist there shall be no access within the TPZ.
- c) A sign identifying the Tree Protection Zone shall be erected on each side of the protection fence indicating the existence of a TPZ. Signage must be visible from within the development site.
- d) No excavation, construction activity, grade changes, storage of materials, stockpiling, siting of works sheds, preparation of mixes or cleaning of tools is permitted within Tree Protection Zones, unless specified in Condition B.2 of this consent.
- e) The site foreman must be made aware of all tree protection requirements associated with these conditions of consent by the project arborist. Any subsequent site personnel and contractors to the site must be made aware of all tree protection requirements by the site foreman.
- f) The project arborist shall provide written certification of compliance with the above condition.

B.2 Arborists Documentation and Compliance Checklist

The site arborist shall provide written certification that all tree protection measures and construction techniques relevant to this consent have been complied with. Documentation for each site visit shall include:

- A record of the condition of trees to be retained prior to and throughout development;
- Recommended actions to improve site conditions and rectification of noncompliance; and
- Recommendations for future works which may impact the trees

All compliance certification documents shall be kept on site by the Site Foreman.

As a minimum the following intervals of site inspections must be made:

Stage of arboricultural inspection	Compliance documentation and photos shall be included		
Installation of tree protection fencing	Compliance with tree protection measures		
Commencement of building demolition	Ensure stability of hard surfaces adjacent to Tree 25 during heavy vehicle movements		

Inspections and compliance documentation shall be made by an arborist with AQF Level 5 qualifications.

Additional site visits shall be made when required by site arborist and/or site foreman for ongoing monitoring/supervisory work.

B.3 Recording of significant or contributory buildings prior to any demolition or alteration

A full archival record of the building and landscape elements to be altered is to be submitted, to the satisfaction of Council's heritage officer, prior to the commencement of any work and prior to the issue of a Construction Certificate.

The archival record is to be completed by a heritage consultant listed on the Consultants Directory by the NSW Office of Environment & Heritage (Heritage Branch) or by a suitably qualified consultant who must demonstrate a working knowledge of archival principles.

Photographic archival records must be taken of the building, landscape or item in accordance with 'The Heritage Information Series, Photographic Recording of Heritage Items Using Film or Digital Capture 2006' published by the former NSW Department of Planning Heritage Branch.

There should be one digital set of the photographic report. The following table summarises the lodgement details for photographic records, depending on which material is selected. It is satisfactory to supply one material only and digital material is recommended.

Material	Minimum Requirement	Repository
Digital Materials	1 copy of photographic	Woollahra Council
	report including images	Report and images (digital version)

The photographic archival recording is to be submitted in a digital format and is to include the following:

- a) Site plan at a scale of 1:200 (or 1:500 if appropriate) of all structures and major landscape elements including their relationship to the street and adjoining properties and directional details of photographs taken.
- b) Floorplans of the internal layout and directional details of photographs taken.
- a) Coloured photographs of:
 - each elevation,
 - each structure and landscape feature;
 - internal images of each room and significant architectural detailing;
 - views to the subject property from each street and laneway or public space.

Note: Refer to the NSW OEH Heritage Branch free publication 'Photographic Recording of Heritage Items using Film or Digital Capture' available at:

http://www.environment.nsw.gov.au/resources/heritagebranch/heritage/infopho tographicrecording2006.pdf

Standard Condition: B2 (Autotext BB2)

B.4 Identification of Hazardous Material

In accordance with Australian Standard AS2601- 'The Demolition of Structures' the owner shall identify all hazardous substances located on the site including asbestos, Polychlorinated biphenyls (PCBs), lead paint, underground storage tanks, chemicals, etc. per Clause 1.6.1 of the Standard. In this regard, **prior to the commencement of any work**, Council shall be provided with a written report prepared by a suitably qualified competent person detailing;

- all hazardous materials identified on the site;
- the specific location of all hazardous materials identified;
- whether the hazardous materials are to be removed from the site as part of the works to be undertaken; and
- safety measures to be put in place.

Note: This condition is imposed to protect the health and safety of all persons while works are being undertaken and to ensure all safety measures have been identified and are in place to protect all parties in the immediate vicinity of the site. Standard Condition: B6

B.5 Public Road Assets prior to any work/demolition

To clarify the condition of the existing public infrastructure prior to the commencement of any development (including prior to any demolition), the *Applicant* or *Owner* must submit to Council a full record of the condition of the Public Road infrastructure adjacent to the development site.

The report must be submitted to Council prior to the commencement of <u>any work</u> and include photographs showing current condition and any existing damage fronting and adjoining the site to the:

- road pavement,
- kerb and gutter,
- footway including footpath pavement and driveways,

- retaining walls within the footway or road, and
- drainage structures/pits.

The reports are to be supplied in both paper copy and electronic format in Word. Photographs are to be in colour, digital and date stamped.

If the required report is not submitted then Council will assume there was no damage to any infrastructure in the immediate vicinity of the site prior to the commencement of any work under this consent.

Note: If the Applicant or Owner fails to submit the Asset condition report required by this condition and damage is occasioned to public assets adjoining the site, Council will deduct from security any costs associated with remedying, repairing or replacing damaged public infrastructure. Nothing in this condition prevents Council making any claim against security held for this purpose Standard Condition: B7

C. Conditions which must be satisfied prior to the issue of any construction certificate

Nil.

D. Conditions which must be satisfied prior to the commencement of any development work

D.1 Security Fencing, Hoarding and Overhead Protection

Security fencing must be provided around the perimeter of the development site, including any additional precautionary measures taken to prevent unauthorised entry to the site at all times during the demolition, excavation and construction period. Security fencing must be the equivalent 1.8m high chain wire as specified in AS 1725.

Where the development site adjoins a public thoroughfare, the common boundary between them must be fenced for its full length with a hoarding, unless the least horizontal distance between the common boundary and the nearest parts of the structure is greater than twice the height of the structure. The hoarding must be constructed of solid materials (chain wire or the like is not acceptable) to a height of not less than 1.8 m adjacent to the thoroughfare.

Where a development site adjoins a public thoroughfare with a footpath alongside the common boundary then, in addition to the hoarding required above, the footpath must be covered by an *overhead protective structure* and the facing facade protected by heavy-duty scaffolding, unless either:

- a) The vertical height above footpath level of the structure being demolished is less than 4.0 m; or
- b) The least horizontal distance between footpath and the nearest part of the structure is greater than half the height of the structure.

The overhead structure must consist of a horizontal platform of solid construction and vertical supports, and the platform must:

- a) Extend from the common boundary to 200mm from the edge of the carriageway for the full length of the boundary;
- b) Have a clear height above the footpath of not less than 2.1 m;
- c) Terminate 200mm from the edge of the carriageway (clearance to be left to prevent impact from passing vehicles) with a continuous solid upstand projecting not less than 0.5 m above the platform surface; and
- d) Together with its supports, be designed for a uniformly distributed live load of not less than 7 kPa.

The *principal contractor* or *owner builder* must pay all fees associated with the application and occupation and use of the road (footway) for required hoarding or overhead protection.

The *principal contractor* or *owner builder* must ensure that Overhead Protective Structures are installed and maintained in accordance with WorkCover NSW Code of Practice - Overhead Protective Structures, gazetted 16 December 1994, as commenced 20 March 1995. This can be downloaded from: <u>http://www.workcover.nsw.gov.au/formspublications/publications/Pages/WC00017</u> <u>OverheadProtectiveStructuresCodeofPracti</u> .aspx

Security fencing, hoarding and overhead protective structure must not obstruct access to utilities services including but not limited to man holes, pits, stop valves, fire hydrants or the like.

Note: The *principal contractor* or *owner* must allow not less than two (2) weeks from the date of making a hoarding application for determination. Any approval for a hoarding or overhead protection under the *Roads Act* 1993 will be subject to its own conditions and fees. Standard Condition: D11 (Autotext DD11)

D.2 Site Signs

The *Principal Contractor* or *owner builder* must ensure that the sign/s required by clauses 98A and 227A of the *Regulation* is/are erected and maintained at all times.

Clause 98A of the Regulation provides:

Erection of signs

- For the purposes of section 80A (11) of the *Act*, the requirements of subclauses (2) and (3) are prescribed as conditions of a development consent for development that involves any building work, subdivision work or demolition work.
- A sign must be erected in a prominent position on any site on which building work, subdivision `work or demolition work is being carried out:
 - a. showing the name, address and telephone number of the principal certifying authority for the work, and
 - showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
 stating that unauthorised entry to the work site is prohibited.
 - stating that unauthorised entry to the work site is prohibited.
- Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.
- This clause does not apply in relation to building work, subdivision work or demolition work that is carried out inside an existing building that does not affect the external walls of the building.
- This clause does not apply in relation to Crown building work that is certified, in accordance with section 116G of the Act, to comply with the technical provisions of the State's building laws."

Clause 227A of the Regulation provides:

Signs on development sites

If there is a person who is the PCA or the principal contractor for any building work, subdivision work or demolition work authorised to be carried out on a site by a development consent or complying development certificate:

- Each such person MUST ensure that a rigid and durable sign showing the person's identifying particulars so that they can be read easily by anyone in any public road or other public place adjacent to the site is erected in a prominent position on the site before the commencement of work, and is maintained on the site at all times while this clause applies until the work has been carried out.
- Note: Clause 227A imposes a penalty exceeding \$1,000 if these requirements are not complied with.
 Note: If *Council* is appointed as the *PCA* it will provide the sign to the *principal contractor* or *owner builder* who must ensure that the sign is erected and maintained as required by Clause 98A and Clause 227A of the *Regulation*.
 Standard Condition: D12 (Autotext DD12)

D.3 Toilet Facilities

Toilet facilities are to be provided, at or in the vicinity of the work site on which work involved in the erection or demolition of a building is being carried out, at the rate of one toilet for every 20 persons or part of 20 persons employed at the site. Each toilet provided:

- a) Must be a standard flushing toilet, and
- b) Must be connected to a public sewer, or
- c) If connection to a public sewer is not practicable, to an accredited sewage management facility approved by the council, or
- d) If connection to a public sewer or an accredited sewage management facility is not practicable, to some other sewage management facility approved by the council.

The provision of toilet facilities in accordance with this condition must be completed before any other work is commenced.

In this condition:

accredited sewage management facility means a sewage management facility to which Division 4A of Part 3 of the *Local Government (Approvals) Regulation* 1993 applies, being a sewage management facility that is installed or constructed to a design or plan the subject of a certificate of accreditation referred to in clause 95B of the *Local Government (Approvals) Regulation* 1993.

approved by the council means the subject of an approval in force under Division 1 of Part 3 of the *Local Government (Approvals) Regulation* 1993.

public sewer has the same meaning as it has in the *Local Government (Approvals) Regulation* 1993. *sewage management facility* has the same meaning as it has in the *Local Government (Approvals) Regulation* 1993.

Note: This condition does not set aside the requirement to comply with Workcover NSW requirements.

Standard Condition: D13 (Autotext DD13)

D.4 Erosion and Sediment Controls – Installation

The *principal contractor* or *owner builder* must install and maintain water pollution, erosion and sedimentation controls in accordance with:

- a) The Soil and Water Management Plan if required under this consent:
- b) "Do it Right On Site, Soil and Water Management for the Construction Industry" published by the Southern Sydney Regional Organisation of Councils, 2001; and
- c) "*Managing Urban Stormwater Soils and Construction*" published by the NSW Department of Housing 4th Edition" ('The Blue Book').

Where there is any conflict The Blue Book takes precedence.

- Note: The International Erosion Control Association Australasia (http://www.austieca.com.au/) lists consultant experts who can assist in ensuring compliance with this condition. Where Soil and Water Management Plan is required for larger projects it is recommended that this be produced by a member of the International Erosion Control Association – Australasia.
- Note: The "Do it Right On Site, Soil and Water Management for the Construction Industry" publications can be down loaded free of charge from <u>www.woollahra.nsw.gov.au</u>.
- Note: A failure to comply with this condition may result in penalty infringement notices, prosecution, notices and orders under the Act and/or the *Protection of the Environment Operations Act* 1997 without any further warning. It is a criminal offence to cause, permit or allow pollution.
- **Note:** Section 257 of the *Protection of the Environment Operations Act* 1997 provides inter alia that "the occupier of premises at or from which any pollution occurs is taken to have caused the pollution"
- Warning: Irrespective of this condition any person occupying the site may be subject to proceedings under the *Protection of the Environment Operations Act* 1997 where pollution is caused, permitted or allowed as the result of their occupation of the land being developed. Standard Condition: D14 (Autotext DD14)

D.5 Subdivision of Land - Construction Certificate, Appointment of Principal Certifying Authority, and Notice of Commencement (s81A(3)&(4) of the Act)

Subdivision work in accordance with a development consent must not be commenced until:

a) A *construction certificate* for the subdivision work has been issued by the consent authority, the council (if the council is not the consent authority) or an *accredited certifier*, and

- b) The person having the benefit of the development consent has appointed a *principal certifying authority* for the subdivision work, and
- c) The *principal certifying authority* has, no later than 2 days before the subdivision work commences:
 - notified the consent authority and the council (if the council is not the consent authority) of his or her appointment, and
 - notified the person having the benefit of the development consent of any critical stage inspections and other inspections that are to be carried out in respect of the subdivision work, and
 - the person having the benefit of the development consent has given at least 2 days' notice to the council of the person's intention to commence the subdivision work.
- Note: Only council can issue a construction certificate for subdivision work. Only council can act as the PCA for subdivision work.
- Note: Construction Certificate Application, PCA Service Agreement and Notice of Commencement forms can be downloaded from Council's website <u>http://www.woollahra.nsw.gov.au</u>
- Note: It is an offence for any person to carry out subdivision work in breach of this condition and in breach of section 81A(4) of the Act.
- **Note:** A plan of subdivision cannot be registered under the *Conveyancing Act* 1919 unless a subdivision certificate has been issued for the subdivision. Standard Condition: D16 (Autotext DD16)

E. Conditions which must be satisfied during any development work

E.1 Tree Preservation

All persons must comply with Council's Development Control Plan (DCP) 2015, Tree Management Chapter E3 other than where varied by this consent. The DCP applies to any tree with a height greater than 5 metres or a diameter spread of branches greater than 3 metres.

General Protection Requirements

- a) The TPZ must be maintained during all development work unless otherwise specified within these conditions of consent.
- b) Excavation must cease where tree roots with a diameter exceeding 50mm are exposed. The *principal contractor* must procure an inspection of the exposed tree roots by an arborist with a minimum AQF Level 5 qualification. Excavation must only recommence with the implementation of the recommendations of the arborist.
- g) Where there is damage to any part of a tree the *principal contractor* must procure an inspection of the tree by a qualified arborist immediately. The *principal contractor* must immediately implement treatment as directed by the arborist. The arborist is to supply a detailed report to the appointed certifier. Note: Trees must be pruned in accordance with *Australian Standard AS 4373 "Pruning of Amenity Trees"* and *WorkCover NSW Code of Practice Amenity Tree Industry*.

E.2 Compliance with Australian Standard for Demolition

Demolition of buildings and structures must comply with Australian Standard AS 2601—2001: The Demolition of Structures, published by Standards Australia, and as in force at 13 September 2001.

Standard Condition: E2 (Autotext EE2)

E.3 Requirement to notify about new evidence

Any new information which comes to light during remediation, demolition or construction works which has the potential to alter previous conclusions about site contamination, heritage significance, threatened species or other relevant matters must be immediately notified to Council and the Principal Certifying Authority. Standard Condition: E4 (Autotext EE4)

E.4 Critical Stage Inspections

Critical stage inspections must be called for by the *principal contractor* or *owner builder* as required by the PCA, any PCA service agreement, the *Act* and the *Regulation*.

Work must not proceed beyond each critical stage until the PCA is satisfied that work is proceeding in accordance with this consent, the Construction Certificate(s) and the *Act*.

Critical stage inspections means the inspections prescribed by the *Regulations* for the purposes of section 109E(3)(d) of the *Act* or as required by the *PCA* and any PCA Service Agreement.

Note: The PCA may require inspections beyond mandatory critical stage inspections in order that the PCA be satisfied that work is proceeding in accordance with this consent.

Note: The PCA may, in addition to inspections, require the submission of Compliance Certificates, survey reports or evidence of suitability in accordance with Part A2.2 of the BCA in relation to any matter relevant to the development. Standard Condition: E5 (Autotext EE5)

E.5 Hours of Work – Amenity of the neighbourhood

- a) No *work* must take place on any Sunday or public holiday,
- b) No *work* must take place before 7am or after 5pm any weekday,
- c) No *work* must take place before 7am or after 1pm any Saturday,
- d) The following *work* **must not** take place before 9am or after 4pm any weekday, or before 9am or after 1pm any Saturday or at any time on a Sunday or public holiday;
 - (i) Piling;
 - (ii) Piering;
 - (iii) Rock or concrete cutting, boring or drilling;
 - (iv) Rock breaking;
 - (v) Rock sawing;
 - (vi) Jack hammering; or
 - (vii) Machine excavation,
- e) No loading or unloading of material or equipment associated with the activities listed in part d) above must take place before 9am or after 4pm any weekday, or before 9am or after 1pm any Saturday or at any time on a Sunday or public holiday
- f) No operation of any equipment associated with the activities listed in part d) above must take place before 9am or after 4pm any weekday, or before 9am or after 1pm any Saturday or at any time on a Sunday or public holiday
- g) No rock excavation being cutting, boring, drilling, breaking, sawing, jack hammering or bulk excavation of rock, must occur without a 15 minute break every hour.

This condition has been imposed to mitigate the impact of work upon the amenity of the neighbourhood. Impact of work includes, but is not limited to, noise, vibration, dust, odour, traffic and parking impacts.

- **Note:** The use of noise and vibration generating plant and equipment and vehicular traffic, including trucks in particular, significantly degrade the amenity of neighbourhoods and more onerous restrictions apply to these activities. This more invasive work generally occurs during the foundation and bulk excavation stages of development. If you are in doubt as to whether or not a particular activity is considered to be subject to the more onerous requirement (9am to 4pm weekdays and 9am to 1pm Saturdays) please consult with Council.
- Note: Each and every breach of this condition by any person may be subject to separate penalty infringement notice or prosecution.
- **Note:** The delivery and removal of plant, equipment and machinery associated with wide loads subject to RTA and Police restrictions on their movement outside the approved hours of work will be considered on a case by case basis.
- **Note:** Compliance with these hours of work does not affect the rights of any person to seek a remedy to offensive noise as defined by the *Protection of the Environment Operations Act* 1997, the *Protection of the Environment Operations (Noise Control) Regulation* 2000.
- Note: EPA Guidelines can be down loaded from http://www.epa.nsw.gov.au/noise/nglg.htm

Note: see <u>http://www.epa.nsw.gov.au/resources/ci_build_sheet7.pdf</u> Standard Condition: E6 (Autotext EE6)

E.6 Public Footpaths – Safety, Access and Maintenance

The *principal contractor* or *owner builder* and any other person acting with the benefit of this consent must:

- a) Not erect or maintain any gate or fence swing out or encroaching upon the road or the footway.
- b) Not use the road or footway for the storage of any article, material, matter, waste or thing.
- c) Not use the road or footway for any *work*.
- d) Keep the road and footway in good repair free of any trip hazard or obstruction.
- e) Not stand any plant and equipment upon the road or footway.
- f) Provide a clear safe pedestrian route a minimum of 1.5m wide.
- g) Protect heritage listed street name inlays in the footpath which are not to be removed or damaged during development.

This condition does not apply to the extent that a permit or approval exists under the section 73 of the *Road Transport (Safety and Traffic Management) Act* 1999, section 138 of the *Roads Act* 1993 or section 94 of the *Local Government Act* 1993 except that at all time compliance is required with:

- a) Australian Standard AS 1742 (Set) Manual of uniform traffic control devices and all relevant parts of this set of standards.
- b) Australian Road Rules to the extent they are adopted under the *Road Transport* (Safety and Traffic Management) (Road Rules) Regulation 1999.
- **Note:** Section 73 of the *Road Transport (Safety and Traffic Management) Act* 1999 allows the Police to close any road or road related area to traffic during any temporary obstruction or danger to traffic or for any temporary purpose. Any road closure requires Police approval.
- Note: Section 138 of the *Roads Act* 1993 provides that a person must not:
 - erect a structure or carry out a work in, on or over a public road, or dig up or disturb the surface of a public road, or

DA Consent - DA2017 629 1 - 23 Victoria Road BELLEVUE HILL

- remove or interfere with a structure, work or tree on a public road, or
- pump water into a public road from any land adjoining the road, or
- connect a road (whether public or private) to a classified road, otherwise than with the consent of the appropriate roads authority.

Note: Section 68 of the *Local Government Act* 1993 provides that a person may carry out certain activities only with the prior approval of the council including:

- Part C Management of Waste:
 - a. For fee or reward, transport waste over or under a public place
- b. Place waste in a public place
- c. Place a waste storage container in a public place."
- Part E Public roads:
 - a. Swing or hoist goods across or over any part of a public road by means of a lift, hoist or tackle projecting over the footway
 - b. Expose or allow to be exposed (whether for sale or otherwise) any article in or on or so as to overhang any part of the road or outside a shop window or doorway abutting the road, or hang an article beneath an awning over the road."
 - c. Any work in, on or over the Road or Footway requires *Council* Approval and in the case of classified roads the NSW Roads and Traffic Authority. Road includes that portion of the road uses as a footway. Standard Condition: E7 (Autotext EE7)

E.7 Maintenance of Environmental Controls

The *principal contractor* or *owner builder* must ensure that the following monitoring, measures and controls are maintained:

- a) Erosion and sediment controls,
- b) Dust controls,
- c) Dewatering discharges,
- d) Noise controls;
- e) Vibration monitoring and controls;
- f) Ablutions;

Note: See <u>http://www.epa.nsw.gov.au/small_business/builders.htm</u> for additional information.

Standard Condition: E11

E.8 Erosion and Sediment Controls – Maintenance

The *principal contractor* or *owner builder* must maintain water pollution, erosion and sedimentation controls in accordance with:

- a) The Soil and Water Management Plan required under this consent;
- b) "Do it Right On Site, Soil and Water Management for the Construction Industry" published by the Southern Sydney Regional Organisation of Councils, 2001; and
- c) "*Managing Urban Stormwater Soils and Construction*" published by the NSW Department of Housing 4th Edition ("*The Blue Book*").

Where there is any conflict *The Blue Book* takes precedence.

- **Note:** A failure to comply with this condition may result in penalty infringement notices, prosecution, notices and orders under the Act and/or the Protection of the Environment Operations Act 1997 without any further warning. It is a criminal offence to cause, permit or allow pollution.
- **Note:** Section 257 of the Protection of the Environment Operations Act 1997 provides that "the occupier of premises at or from which any pollution occurs is taken to have caused the pollution".
- Warning: Irrespective of this condition any person occupying the site may be subject to proceedings under the Protection of the Environment Operations Act 1997 where pollution is caused, permitted or allowed as the result of the occupation of the land being developed whether or not they actually cause the pollution. Standard Condition: E15 (Autotext EE15)

E.9 Dust Mitigation

Dust mitigation must be implemented in accordance with "*Dust Control - Do it right on site*" published by the Southern Sydney Regional Organisation of Councils.

This generally requires:

- a) Dust screens to all hoardings and site fences.
- b) All stockpiles or loose materials to be covered when not being used.
- c) All equipment, where capable, being fitted with dust catchers.
- d) All loose materials being placed bags before placing into waste or skip bins.
- e) All waste and skip bins being kept covered when not being filled or emptied.
- f) The surface of excavation work being kept wet to minimise dust.
- g) Landscaping incorporating trees, dense shrubs and grass being implemented as soon as practically possible to minimise dust.
- Note: "Dust Control Do it right on site" can be down loaded free of charge from Council's web site www.woollahra.nsw.gov.au or obtained from Council's office.
- Note: Special precautions must be taken when removing asbestos or lead materials from development sites. Additional information can be obtained from <u>www.workcover.nsw.gov.au</u> and <u>www.epa.nsw.gov.au</u>. Other specific condition and advice may apply.
- **Note:** Demolition and construction activities may affect local air quality and contribute to urban air pollution. The causes are dust, smoke and fumes coming from equipment or activities, and airborne chemicals when spraying for pest management. Precautions must be taken to prevent air pollution.

Standard Condition: E23 (Autotext EE23)

E.10 Asbestos Removal

Where hazardous material, including bonded or friable asbestos has been identified in accordance with condition B6 above, and such material must be demolished, disturbed and subsequently removed, all such works must comply with the following criteria:

- a) Be undertaken by contractors who hold a current WorkCover Asbestos or "Demolition Licence" and a current WorkCover "Class 2 (restricted) Asbestos License,
- b) Be carried out in accordance with National Occupational Health and Safety Commission (NOHSC): "Code of Practice for the Safe Removal of Asbestos",
- c) No asbestos products may be reused on the site
- d) No asbestos laden skip or bins shall be left in any public place
- Note: This condition is imposed to protect the health and safety of persons working on the site and the public Standard Condition: E39

E.11 Classification of Hazardous Waste

Prior to the exportation of hazardous waste (including hazardous fill or soil) from the site, the waste materials must be classified in accordance with the provision of the *Protection of the Environment Operations Act 1997* and the NSW DECC *Waste Classification Guidelines, Part1: Classifying Waste* (April 2008).

Note: This condition is imposed to ensure that where hazardous waste will be removed from a site an Asbestos Licensed contractor can definitively determine where the waste may be legally taken for disposal. Standard Condition: E40

E.12 Disposal of Asbestos and Hazardous Waste

Asbestos and hazardous waste, once classified in accordance with condition E 40 above must only be transported to waste facilities licensed to accept asbestos and appropriate classifications of hazardous waste.

Note: This condition is imposed to ensure that asbestos and other Hazardous waste is disposed of lawfully under the Protection of the Environment Operations Act 1997 and relevant EPA requirements. Standard Condition: E41

E.13 Asbestos Removal Signage

Standard commercially manufactured signs containing the words "DANGER ASBESTOS REMOVAL IN PROGRESS" measuring not less than 400mm x 300mm are to be erected in prominent visible positions on the site when asbestos is being removed.

Note: This condition is imposed to ensure awareness of any hazard to the health and safety of persons working on the site and public. Standard Condition: E42

E.14 Notification of Asbestos Removal

In addition to the requirements for licensed asbestos removalists to give written notice to WorkCover all adjoining properties and those opposite the development site must be notified in writing of the dates and times when asbestos removal is to be conducted. The notification is to identify the licensed asbestos removal contractor and include a contact person for the site together with telephone and facsimile numbers and email addresses. Note: This condition has been imposed to ensure that local residents are informed and have adequate communication facilitated for incidents of asbestos removal. Standard Condition: E43

F. Conditions which must be satisfied prior to any occupation or use of the building (Part 4A of the Act and Part 8 Division 3 of the Regulation)

Nil.

G. Conditions which must be satisfied prior to the issue of any Subdivision Certificate

G.1 Land Subdivision Certificate (s109J of the Act)

A plan of subdivision cannot be registered under the <u>Conveyancing Act 1919</u> unless a subdivision certificate has been issued for the subdivision. The person with the benefit of this consent must submit to Council an application for a Subdivision Certificate demonstrating compliance with section 109J of the Act.

No Subdivision Certificate must be issued until the plan of subdivision detailing the provision of all required easements and right of ways or the like to be registered upon the title of each lot to be so benefited or burdened has been submitted to Council. Standard Condition: G1 (Autotext GG1)

H. Conditions which must be satisfied prior to the issue of a Final Occupation Certificate (s109C(1)(c))

Nil.

I. Conditions which must be satisfied during the ongoing use of the development

Nil.

J. Miscellaneous Conditions

Nil.

K. Advisings

K.1 Criminal Offences - Breach of Development Consent and Environmental laws

Failure to comply with this development consent and any condition of this consent is a **criminal offence**. Failure to comply with other environmental laws is also a criminal offence.

Where there is any breach Council may without any further warning:

- a) Issue Penalty Infringement Notices (On-the-spot fines);
- b) Issue notices and orders;
- c) Prosecute any person breaching this consent; and/or
- d) Seek injunctions/orders before the courts to restrain and remedy any breach.

Warnings as to potential maximum penalties

Maximum Penalties under NSW Environmental Laws include fines up to \$1.1 Million and/or custodial sentences for serious offences.

Warning as to enforcement and legal costs

Should Council have to take any action to enforced compliance with this consent or other environmental laws Council's policy is to seek from the Court appropriate orders requiring the payments of its costs beyond any penalty or remedy the Court may order.

This consent and this specific advice will be tendered to the Court when seeking costs orders from the Court where Council is successful in any necessary enforcement action.

Note: The payment of environmental penalty infringement notices does not result in any criminal offence being recorded. If a penalty infringement notice is challenged in Court and the person is found guilty of the offence by the Court, subject to section 10 of *the Crimes (Sentencing Procedure) Act* 1999, a criminal conviction is recorded. The effect of a criminal conviction beyond any fine is serious. You can obtain further information from the following web sites: http://www.theshopfront.org/documents/ConvictionsCriminalRecords.pdf and the Attorney General's www.agd.nsw.gov.au. Standard Advising: K1 (Autotext KK1)

K.2 Dial before you dig

The *principal contractor*, *owner builder* or any person digging may be held financially responsible by the asset owner should they damage underground pipe or cable networks. Minimise your risk and Dial 1100 Before You Dig or visit www.dialbeforeyoudig.com.au.

When you contact Dial Before You Dig you will be sent details of all Dial Before You Dig members who have underground assets in the vicinity of your proposed excavation.

Standard Advising: K2 (Autotext KK2)

K.3 Builder's Licences and Owner Builders Permits

Section 81A of the *Act* requires among other matters that the person having the benefit of the development consent, if not carrying out the work as an **owner-builder**, must appointed a *principal contractor* for residential building work who must be the holder of a contractor licence.

Further information can be obtained from the NSW Office of Fair Trading website about how you obtain an owner builders permit or find a principal contractor (builder): <u>http://www.dft.nsw.gov.au/building.html</u>.

The Owner(s) must appoint the PCA. The PCA must check that Home Building Act insurance is in place before the commencement of building work. The Principal Contractor (Builder) must provide the Owners with a certificate of insurance evidencing the contract of insurance under the Home Building Act 1989 for the residential building work.

Standard Condition: K5 (Autotext KK5)

K.4 Building Standards - Guide to Standards and Tolerances

The PCA does not undertake detailed quality control inspections and the role of the PCA is primarily to ensure that the development proceeds in accordance with this consent, Construction Certificates and that the development is fit for occupation in accordance with its classification under the Building Code of Australia. Critical Stage Inspections do not provide the level of supervision required to ensure that the minimum standards and tolerances specified by the "Guide to Standards and Tolerances©" ISBN 0 7347 6010 8 are achieved.

The quality of any development is a function of the quality of the *principal contractor*'s or *owner builder*'s supervision of individual contractors and trades on a daily basis during the development. The PCA does not undertake this role.

The NSW Office of Fair Trading have published a "Guide to Standards and Tolerances©" ISBN 0 7347 6010 8. The guide can be obtained from the Office of Fair Trading by calling 13 32 20 or by Fax: 9619 8618 or by post to: Marketing Branch, PO Box 972, Parramatta NSW 2124.

The Guide can be down loaded from: <u>http://www.fairtrading.nsw.gov.au/pdfs/corporate/publications/dft242.pdf</u>

Council, as the PCA or otherwise, does not adjudicate building contract disputes between the *principal contractor*, contractors and the owner. Standard Condition: K6 (Autotext KK6)

K.5 Workcover requirements

The <u>Occupational Health and Safety Act 2000 No 40</u> and subordinate regulations, codes of practice and guidelines control and regulate the development industry.

Note: Further information can be obtained from Workcover NSW's website:

http://www.workcover.nsw.gov.au/Industry/Construction/default.htm or through their head office: Location: Workcover NSW, 92-100 Donnison Street, GOSFORD 2250 Postal address: WorkCover NSW, Locked Bag 2906, LISAROW 2252, Phone (02) 4321 5000, Fax (02) 4325 4145.

Standard Condition: K7 (Autotext KK7)

K.6 Asbestos Removal, Repair or Disturbance

Anyone who removes, repairs or disturbs bonded or a friable asbestos material must hold a current removal licence from Workcover NSW.

Before starting work, a work site-specific permit approving each asbestos project must be obtained from Workcover NSW. A permit will not be granted without a current Workcover licence.

All removal, repair or disturbance of or to asbestos material must comply with:

a) The Occupational Health and Safety Act 2000;

b) The Occupational Health and Safety Regulation 2001;

c) The Code of Practice for the Safe Removal of Asbestos [NOHSC: 2002 (1998)];

d) The Guide to the Control of Asbestos Hazards in Buildings and Structures [NOHSC: 3002 (1998)] http://www.nohsc.gov.au/];

- e) The Workcover NSW Guidelines for Licensed Asbestos Removal Contractors.
- Note: The Code of Practice and Guide referred to above are known collectively as the Worksafe Code of Practice and Guidance Notes on Asbestos. They are specifically referenced in the Occupational Health and Safety Regulation 2001 under Clause 259. Under the Occupational Health and Safety Regulation 2001, the Worksafe Code of Practice and Guidance Notes on Asbestos are the minimum standards for asbestos removal work. Council does not control or regulate the Worksafe Code of Practice and Guidance Notes on Asbestos. You should make yourself aware of the requirements by visiting <u>WWW.Workcover.nsw.gov.au</u> or one of Workcover NSW's offices for further advice. Standard Advising: K8 (Autotext KK8)

K.7 Lead Paint

It is beyond the scope of this consent to provide detailed information about dealing with lead paint. Painters working in an area containing lead-based paint should refer to Australian Standard AS 4361.1–1995, Guide to Lead Paint Management— Industrial Applications, or AS 4361.2–1998, Guide to Lead Paint Management— Residential and Commercial Buildings.

Industrial paints may contain lead. Lead is used in some specialised sign-writing and artist paints, and road marking paints, and anti-corrosive paints. Lead was a major ingredient in commercial and residential paints from the late 1800s to 1970. Most Australian commercial buildings and residential homes built before 1970 contain lead paint. These paints were used both inside and outside buildings.

Lead particles are released when old lead paint flakes and peels and collects as dust in ceiling, wall and floor voids. If dust is generated it must be contained. If runoff contains lead particles it must be contained. Lead is extremely hazardous, and stripping of lead-based paint and the disposal of contaminated waste must be carried out with all care. Lead is a cumulative poison and even small levels in the body can have severe effects. Standard Advising: K9 (Autotext KK9)

K.8 Appeal

Council is always prepared to discuss its decisions and, in this regard, please do not hesitate to contact Ms T Ward, Assessment Officer, on (02) 9391 7016.

However, if you wish to pursue your rights of appeal in the Land & Environment Court you are advised that Council generally seeks resolution of such appeals through a Section 34 Conference, site hearings and the use of Court Appointed Experts, instead of a full Court hearing.

This approach is less adversarial, it achieves a quicker decision than would be the case through a full Court hearing and it can give rise to considerable cost and time savings for all parties involved. The use of the Section 34 Conference approach requires the appellant to agree, in writing, to the Court appointed commissioner having the full authority to completely determine the matter at the conference. Standard Condition: K14 (Autotext KK14)

K.9 Release of Security

An application must be made to Council by the person who paid the security for release of the securities held under section 80A of the *Act*.

The securities will not be released until a *Final Occupation Certificate* has lodged with Council, Council has inspected the site and Council is satisfied that the public works have been carried out to Council's requirements. Council may use part or all of the security to complete the works to its satisfaction if the works do not meet Council's requirements.

Council will only release the security upon being satisfied that all damage or all works, the purpose for which the security has been held have been remedied or completed to Council's satisfaction as the case may be.

Council may retain a portion of the security to remedy any defects in any such public work that arise within 6 months after the work is completed.

Upon completion of each section of road, drainage and landscape work to Council's satisfaction, 90% of the Bond monies held by Council for these works will be released upon application. 10% may be retained by Council for a further 6 month period and may be used by Council to repair or rectify any defects or temporary works during the 6 month period.

K.10 Recycling of Demolition and Building Material

It is estimated that building waste, including disposable materials, resulting from demolition, excavation, construction and renovation, accounts for almost 70% of landfill. Such waste is also a problem in the generation of dust and the pollution of stormwater. Council encourages the recycling of demolition and building materials. Standard Condition: K17 (Autotext KK17)

Note: The Application for Refund of Security form can be downloaded from <u>http://www.woollahra.nsw.gov.au/__data/assets/pdf_file/0004/76405/Refund_o</u> <u>f_Security_Form.pdf</u> Standard Condition: K15 (Autotext KK15)
