MP. 10 0006

Director of Key sites & Social
Projects

I wish to object to this
proposal for the following
reasons.

We came to Pindimar South
50 years ago when the area
was a catching area for the
Sydney Rock oyster. mostly self
regulated it flourished. untill
the fisheries thought they could
do it better so it is now in
decline. It seems they are also
backing this cant win project of
Abalone, here in our small
village of about 100 people who
like living in our pristine

village, one of the few left.
The area is closed to expansion
by the Council yet we have
these same people who were
refused last decade by the
land & Environment court for
much the same unanswered
questions

Now this exercise cost
us a lot of money. and a
court decision should be just
that a decision "finished"
not come back when you please.
We had to use our money. we
paid twice last time once
the Council once here in
Pendennis "why is not the
Council not backing its rate
payers "why"
