The proponent uses words that are very vague (not likely) (unlikely). they might as well be(could be) or (may be)

ONE letter to a FISH shop is NOT a proper Study of the efect comercial fishing in Port Stephens.

Discharg of 1,000 kg of nitrogen per year into a Estuary that dose not flush out ,could build up and change the water quality.

Will the fish cought in Port Stephens have traces of by products of the MAY BE poluted waters in the port ?

NO SCIENTIFIC STUDY has been undertaken on Marine Life .only VAGUE words.

NO SCIENTIFIC STUDY on Marine water Qualiity only vague words.

NO Credable Moniting of noise from the farm, The Proponent used RURAL STAND:
It is a RESANTAL VILLAGE.

NO study of orderes from the rotting dead Abalone.or marrine life in the Bay that may die.from changed water quality.

I am worried about the famely swimming in the water .

We make our objections to the development on the above points .
