Manager - Industry  
Industry, Key Sites and Social Projects  
Planning and Infrastructure  
GPO Box 39  
SYDNEY NSW 2001

Dear Mr Ritchie

**Client:** Austasia Leefield Pty Ltd  
**Location:** Pindimar  
**Proposed:** Proposed Abalone Farm

Reference is made to your recent request in regards to the above mentioned proposed development.

Roads and Maritime Services advise that the proposal, has been assessed as having minimal impact on navigation, provided the following conditions are met:

- The proponent is to supply & install appropriate shoreline signage ie; "Warning – Submerged Pipeline" (Re: Roads and Maritime for guidelines)
- The proponent is to supply & install five yellow SLB600 Aquabuys, signwritten "Warning – Submerged Pipeline" (Re: Roads and Maritime for guidelines)
- The Aquabuys must be attached to the pipelines at their junction point 200m from the shore and then midway along each pipeline and at the end of each pipeline
- The two Aquabuys marking the end of each pipeline must be lit with a yellow flashing SL60 light
- The Aquabuys and lights are to be serviced annually and properly maintained

Should the proposal change after receiving comment from Roads and Maritime, it will be necessary to resubmit the amended plans for assessment along with an inspection fee.

If we can be of any further assistance, please do not hesitate to contact this office.

Yours sincerely

  
Sonia McKay  
Principal Manager North
