Dear Ms Nettlefold,

**Re: Harbourside Redevelopment**

I am writing expressing my concerns about the redevelopment of Harbourside. There are plans for two tall residential towers which seem to dominate the skylines of Harbourside. The bulk and scale seem excessive and do not fit with the rest of the existing buildings along the precinct. My other concerns are the shadowing of neighbouring residential buildings obscuring views and natural light. I urge the government authorities to reject this proposal.

I support the retail and commercial redevelopment and as a resident I feel that the Harbourside should greatly benefit the public for local Sydney residents and tourist to enjoy, not lining the pockets of developers with the residential component.

Yours sincerely,

Sonia Chan
