16 September 2016

Dear Mr Ritchie,

Proposed Demolition and Remediation of the former Hydro Aluminium Smelter Kurri Kurri, Hart Road Loxford (SSD 6666)

I refer to your letter dated 1 September 2016, seeking comments from the NSW RFS for relevant bush fire assessment requirements for inclusion as part of the Environmental Assessment for an Environmental Impact Assessment (EIS) for the proposed development.

A bush fire hazard assessment should be prepared from suitably qualified consultants and submitted, as part of the final EIS, which considers the bush fire risk to and from the site to surrounding vegetated areas during any demolition, remediation or construction works and which provides appropriate bush fire protection measures to address the type and level of risk.

For any enquiries regarding this correspondence please contact Craig Casey on 1300 679 737.

Yours sincerely

Jason Maslen
Team Leader Development Assessment and Planning
