Re: "Have your say"
Bobs Farm Sand Mine

Department of Planning
Received
7 JAN 2019
Scanning Room

Dear Sir / Madam,

It bothers me greatly to have to provide a submission on what should be a non-event.

Just going through the list of problem mentioned in the local Newspaper, makes me think what kind of thoughtless people could approve such a project?

They are:

1. Threat to Bobs Farm Public School.
2. 180 Extra trucks daily on Nelson Bay Rd
3. Clearing 36 hectares of land.
4. Destruction of threatened species habitat
5. Air quality issues (Silica Dust etc)
6. Interference with the water table.

This proposal is unacceptable!

Department of Planning & Environment, is this the same people who "accidentally" sold the Mumbo wetlands?

We are in trouble if this is indeed the same lot?

Yours sincerely,

R) White
