**I am very much against this Development Somesby was to be a Clean Industrial Area**

My concerns with this application are as follow:-

The effect that the process of crushing materials will have on the organic farmers based around the Somersby area. The dust will quite probably counteract the benefits of the crops meaning they will no longer be organic.

Another very serious concern is the Juvenile Justice Centre will leave the inmates with no escape from the dust particles they certainly will be a captive audience & instead of serving a minor offence sentence it could be a death sentence.

The M1 already has a very high truck movements with vehicles constantly breaking down this will only exasperate the situation & no doubt cause more casualties on that highway.

I have not made any reportable donation to any political party in the past 2 years

Yours faithfully
