**I am against this proposal on the following grounds:-**

Should this proposal go through I am very concerned that many other companies will take advantage of the area & request more dumps without any consideration to the locals, environment nor farmland which is much more important. This area is renowned for its food production especially clean food production.

Another major concern I have is traffic it is becoming a major problem.

I have not made any reportable political donation in the past two years.

Yours faithfully

21 September 20
