I am very much against this Development Somersby was to be a Clean Industrial Area

My concerns with this application are as follow:-

The effect that the process of crushing materials will have on the organic farmers based around the Somersby area. The dust will definitely counteract the benefits of organic crops meaning they will no longer be organic!

Another concern is airborne asbestos & other particles due to concrete crushing & other unidentified particles from the site. Deliveries will not be checked before they are loaded onto trucks. The effect therefore is any material will therefore be unloaded then need, hopefully sorted, then taken off site I don't believe this will occur.

The M1 already has a very high volume of truck traffic & in a small street like Gindurra Road there is a strong possibility of accidents happening.

I have not made any reportable donation to any political party in the past 2 years
