I am against this proposal on the following grounds:-

My parents moved up to the Central Coast as it was a clean area now it looks like becoming a dumping ground. Why with so much mining in the Hunter Valley can't this waste be used to fill excavated areas & then a previously mined site can be properly rehabilitated preferably by clean waste without the nasties like asbestos etc.

The site will also include concrete crushing this will cause the following problems constant noise for the locals, dust/particles which will become airborne & contaminate areas include the suburb of Kariong but also will effect all employees who work in Somersby, farms, schools etc in the area.

I have not made any reportable political donation in the past two years.

Yours faithfully
