Dear sir or Madam,

Re Application No. SSD-8660 90 Gindurra Rd.
Somersby.

16-9-20.

I wish to indicate that I fully support this proposal.

1. I have been to the site and can assure you that this proposal is much better from an environmental or neighbourhood perspective than what was originally on the site.

2. The product produced I have used on the farm and is very good, affordable and bonus it is recycled product so we don't need to have quarries damaging our local sensitive aquifer.

3. The extra things in the resubmitted plan has made the proposal, which was VERY good even better for us all and the natural environment.

4. A good, clean, safe recycling plant like this is what is important for our region. Long overdue.

Now we need to slow the flow of state pushed recycle plants on our very sensitive plateau and find better sites to recycle the big metropolis' waste.

After the recycle plants that have been approved of late this one, I hope, has set an acceptable standard for the future.

Yours Hopefully.
