Subject: HPE CM: SSD - 8660 Kariong Sand & Soil Supplies
Date: Wednesday, 23 September 2020 08:11:30
Importance: Low

I would like to show my **support** for the proposed development of the Kariong Sand and Soil Supplies Facility.

I am a Central Coast business owner that is running our family construction business that has been servicing the Central Coast for over 48 years. Our family business has had a very long history in the Somersby Area constructing over 60 developments and relocating many Central Coast, Sydney, Newcastle and Hunter business to Somersby. When it comes down to the debate regarding do we recycle our building waste or send it to land fill. In my opinion it is a no brainer that recycling must be encouraged even more than it currently is. I have had the pleasure dealing with the Davis family whilst carrying out contracting works over the past 3 years. I am extremely confident that all the processes required to achieve the balance between recycling and protecting the environment and surrounding business will be achieved.

The Central Coast Area has seen rapid population increases over the past 5 years and State / Federal Government recently increasing the M1 capacity to cater for commuter traffic. The Central Coast must start to create more jobs for Central Coast families and encourage reputable Business to invest in the Central Coast.

The Central Coast desperately requires a facility such as Kariong Recycled Sand & Soil Supplies as over recent years I have noted so much illegal dumping around the Central Coast area in which I imagine is a large cost to Central Coast Council.

Let's support – jobs for our children – recycling of building materials – less waste to Landfill – protection of our environment.

Thank you for recording my response **in support** of this application on the planning portal.

Reportable political donations in the past 2 years: none.

Regards
