Attention: Director - Industry Assessments

Re: Kariong Sand And Soil Supplies Facility - SSD-8660

FROM:

Name: Mr [REDACTED]

Address: [REDACTED]

Reportable political donations: None

I would like to show my support for the proposed development of the Kariong Sand and Soil Supplies Facility which will certainly create local jobs will be a boost to the local economy.

My reasons for submitting this letter in support of this project are as follows:

- There is a definite need to recycle building materials on the Central Coast and I truly believe that this facility will represent an important piece of infrastructure to address the 461,000 tonne per annum recycling gap for building materials in the Central Coast and Hunter, which will help meet the NSW Government's recycling target for building waste by 2021;
- The project also represents a significant boost to the economy of the Central Coast region. The operation will make an estimated economic contribution of \$407 million to the Central Coast economy over the next 25 years.
- At least 20 new direct jobs will be created, providing valuable skilled jobs for the Central Coast & this project will certainly demonstrate the governments sustainable vision for the Central Coast.
- And finally, I truly believe that this exciting development will protect the environment and public health, and will reduce the requirement for new landfill capacity in the region, in particular as this development will divert waste from landfill.

Thank you for recording my support of this application on the departments planning portal.

Kind Regards,
