Re: Kariong Sand And Soil Supplies Facility - SSD-8660

To the Department of Planning - Major Projects,

I would like to show my support for the proposed development of the Kariong Sand and Soil Supplies Facility.

My reasons for supporting this project are:

1. it is a proactive response for the community by creating local jobs
2. the initiative creates educational, training and demonstration opportunities for the promotion of sustainable waste management practices
3. it will boost the Central Coast economy
4. there is a need to facilitate the recycling of building materials on the Central Coast
5. it reduces the great problem of waste /landfill by diverting the waste into recycled landscaping materials, thus reducing waste

educational, training and demonstration opportunities for the **promotion of sustainable waste management practices**

Thank you for recording my response in support of this application on the planning portal.

Kind regards
