PARRAMATTA NSW 2124

Dear Mr. Zhang,

**Kariong Sand and Soil Supplies Facility (SSD-8660)
Amended Environmental Impact Statement and Response to Submissions Report**

Thank you for your correspondences via Major Projects Planning portal (ref: PAE-9024623 and PAE-9024612) on 26 August 2020, requesting Transport for NSW (TfNSW) to review the subject matter. Legislation came into effect on the 1 December 2019 that brings the former Roads & Maritime Services and Transport for NSW together into an integrated organisation. This response represents the collective views of the integrated organization.

The documents on exhibition associated with the subject matter have been reviewed and no further issue is raised to the proposal. As noted in our previous submission, it is advised that the proposed right turn treatment on Gindurra Road at the site access be designed in accordance with the current versions of Austroads Guide to Road Design Part 4 and Part 4A.

If the development is approved, consideration should be given to imposing the condition as recommended in our previous submission.

Thank you again for the opportunity of providing advice for the above development application. If you require any further information, please don't hesitate to contact Billy Yung, Senior Transport Planner, via email at billy.yung@transport.nsw.gov.au. I hope this has been of assistance.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'Mark Ozinga'.
