

Submission to the Department of Planning
and Infrastructure on the Proposed North
West Rail Link (NWRL)

Attention: Director, Infrastructure Projects

I wish to register my objection to any disturbance to Castle Howard Conservation Reserve. Surely it would be advisable to use on and off ramps from the M2 Motorway, rather than have a truck haulage road through bushland. As a member of Hornsby Shire Bushcare, who has worked in the area to maintain the native bushland I am aware of the negative impact that such an access road will have.

Name: Judith Cook
