Hills, 2125.

EPPING TO THORNLEIGH
THIRD TRACK PROPOSAL.

Department of Planning
Received

21 SEP 2012

Scanning Room

I support the proposal as not only will it create new jobs and is good for business it will also free up this section of track for normal passenger train services which hopefully will enable more frequent services.

However, if it is going to impact on the environment flora and fauna, aboriginal heritage etc. then I will not support it. Freight trains are large and noisy and are probably best

suited to a separate
track anyway.

Off the track a bit,
the main problem I see
is the amount of trucks
on Pennant Hill Rd. I
think this should be
addressed also.
