Subject: Epping to Thornleigh Third Track

Submission from Charles and Margaret Klassen
Re: Epping to Thornleigh Third Track
Application # SSI 5132

We fully support additional tracks to carry goods releasing pressure on our roads. You are to be commended for this foresight.

However we do object to the proposal because of its needless disruption to existing infrastructure and amenities. To destroy the amenities of Pennant Hills Station would be vandalism.

We would like to propose a more visionary and far sighted plan.

Why not create a new underground transport corridor in a direct beeline from Epping to Hornsby. The inside tunnels could be dedicated to rail with two outside tunnels catering for a link between the F3 and M2. This would solve two pressing transport problems in this area.

Thank-you,

Charles and Margaret Klassen
