---

Dear Sir,

My name is Po Kwok. My address is 2, Stevens st., Pennant Hills.

I object the ETTT because of environmental issue. It is pushing to its limit too close to the dwellings, destroying flora and fauna. Hornsby shire has a name of bushland shire as advertised. I believed the increased freight train are kind of heavy commercial activities that would be too much for a residential zone.

The gas emissions from the diesel fuel is my concern for the air quality in the local area.

The noise and vibration is as loud even reaching down to the far end down the block. A noise absorbing wall may be standing in place.

I object ETTT is the priority infrastructure project.

Residents of Steven street,

Po Kwok
