Director - Infrastructure Projects
Epping to Thornleigh Third Track Project - SSI 5132
NSW Department of Planning and Infrastructure
C/O Box 39
Sydney NSW 2001

I am writing this on behalf of my neighbour who is elderly MISS ELVA HOY 16 Maple Ave, Pennant Hills and myself Jeanette A Broadbridge, 18 Maple Ave Pennant Hills.

We both object to the proposal (Epping to Thornleigh Third Track proposal)

1. The noise is deafening - I travel every day from Pennant Hills Station. At a meeting I attended there were people from this project answering questions, I asked them had they been to Pennant Hills Station & listened when a freight train came through to hear the noise, Not one of these people had gone down there.
2. It will ruin the look of the area, Beccroft will lose all its lovely trees, scenic area.
3. Business will be ruined for people in Yennore Rd & Beccroft.
4. It will be taking away more parking, traffic that is already dreadful will be worse.

5. People like myself will avoid going by train & walk to where we can pick up a Metro bus which runs frequently to Cherrybrook or Castle Hill & catch a City bus & avoid the noise and the dirt this will cause. (More buses on the road)
6. At a meeting I attended regards this project it was noted for further quotes for this to go underground as the cost was given as a reason for this not to happen. Were there other quotes? Should this be more expensive, we feel this should be done for our benefit as we are living here & own our homes & pay rates. I don't want the noise & look of it.
7. I thought being here near the station was a big advantage but I think my son & daughter living at Cherrybrook near the buses. will be better off & our homes will lose value like a lot of the poor people that live closer to the station than we do. at Pennant Hills living with dreadful noise every day.
