them as well. However if you do not obtain answers for us you will be complicit in a fraud. Please give your name and designation in your reply to me.

The community is angered at this activity as it is, and have little faith in your assessment process. Please prove me wrong. Let me also advise you that the noise material is equally bad and would be incomprehensible to a lay person. In my 37 years in practice in EIA which I taught at the University of Sydney, I have never seen a worse document. You will not receive any submission on it as we have other agenda for dealing with this worthless uneconomic proposal.
Yours faithfully
