Dear Mr Ng

WestConnex Stage 3 M4-M5 Link Modification 1

Thank you for your letter of 11 September 2018 to the Chief Executive Officer inviting the City of Sydney ("the City") to comment on the request for modification of the WestConnex Stage 3 M4-M5 Link project approval. Ms Barone has asked me to respond on her behalf.

The City has an interest in the relocation of the operational water treatment plant from Darley Road to the Campbell Road motorway operation complex at St Peters Interchange.

In particular, the City seeks assurance that the Campbell Road drainage will not be compromised by the additional flow coming from the water treatment plant. We also request confirmation that the proposed relocation of the water treatment plant will not interfere with access into the proposed St Peters Interchange Recreational Area included in the New M5 Urban Design Landscape Plan.

Finally, the WestConnex Stage 3 M4-M5 Link Concept Design of May 2017 indicates the location of the cycle path within the vicinity of the proposed relocation site. The City requests details about the location of the cycle path in light of the proposal to relocate the operational water treatment plant from Darley Road to the Campbell Road motorway operation complex.

Should you wish to speak with a Council officer about the above, please contact Elise Webster, Manager Transport Major Projects, on 9288 5967 or at ewebster@cityofsydney.nsw.gov.au.

Yours sincerely

Kim Woodbury
Chief Operating Officer
