Dear Sirs,

RE: Objection to 'Karuah South Quarry' – SSD 17-8795

I appreciate that the time for objection passes to-day and I apologise for my late submission.

I wish to lodge my objection to this quarry application as there is scant detail on the effect this development will have on the downstream waterways, with or without systems being put in place to avoid any problems.

I am not convinced that this proposal has any merit as there are adequate supplies of these materials at present.

I urge the Department to take a holistic view due to the real dangers to the environment and the possible effect on our aquaculture industry in its path.

Yours,

Ross Bowen
