Dear Sirs,

RE: Objection to Karuah South Quarry – SSD 17-8795

I am writing to lodge my objection to the above 'proposed gravel mine', because:-

there should be no new mines in this area there
are ~~also~~ already too many mines destroying the bush
& too many times waste water is allowed
to ~~get~~ get into our waterway especially the
area (NORTH PACIFIC HIGHWAY) KARUAH.

No thought has been given to oyster farmers ~~in~~
with dirty water into YALIMBAH creek which
will kill their oysters & steal livelihood.

Yours faithfully
