Dear Tim

**Glen Innes Wind Farm - Modification 4 (MP 07_0036)
Environmental Assessment Review**

I refer to your email dated 7 August 2017 inviting the Division of Resources & Geoscience (the Division) to provide comments on the Glen Innes Wind Farm Modification 4 (the Project) submitted by Glen Innes Windpower Pty Ltd (the Proponent).

The Division has reviewed the adequacy of information supplied in relation to the abovementioned Project and provides the following advice:

The proposed Project site has not been identified as containing significant mineral resources, nor is it the subject of current mineral, coal or petroleum titles. The Division has no resource concerns regarding the proposal at this stage.

The proposal is aligned to Government's NSW Renewable Energy Action Plan, and would deliver positive social aspects, driving investment and growth in regional NSW and provide alternate income streams. Increasing solar energy in NSW will help the Government meet its commitment to support the national Renewable Energy Target of 33,000 gigawatt hours (GWh) by 2020.

Should you have any enquires regarding this matter please contact:
Adam Banister, Acting Senior Advisory Officer - Royalties & Advisory Services on (02) 4931 6439.

Yours sincerely

Matt Gagan
