Department of Planning and Environment,

Re :- The Glen Innes Wind Farm Mod 4 application.

Dear Sir/Madam,

My Partner Jo Bruce and I would like to formally object to the Modification Number 4 proposed by the Glen Innes Wind Farm seeking an increase in the size of their Wind Turbines.

During the past three months we have regularly travelled out to Minumurra Stud in the Matheson Valley and assisted the owner Mark Ritchie with the renovation of a brick cottage on the property. Our intention has always been to move into it on completion with our three children and rent it from him.

Initially we considered the Matheson Valley a beautiful peaceful place. That is until we have repeatedly experienced a bombardment of noise coming from the White Rock Wind farm on the western side of the valley. The noise unfortunately is very like a jet engine chained to the top of the mountain.

So distressing is the volume of this noise, particularly late in the evening, that if you actually go ahead and allow more of the same or bigger Wind towers on the Eastern side of the Valley, then I feel certain that we won't be renting the cottage.

Thank you in anticipation.
