Hornsby Quarry Rd Construction Site
Management project
application number SSI7066

Although there will be noise for my family for 28 months.
because I'm the nearest neighbour with Hornsby Quarry Rd.
But I still support this project going well.
the reason:

1. Hornsby population is going up a lot, we need more
space for ~~extra~~ sport, BBA, etc.

2. It will be recovery the original nature outlook, before
it was digged.

3. I was hydro-power station engineer before came to
Australia, As I know this filling up the pond
will not damage the environment, it will be back
to original Quarry Road indeed.

4. I'm a business people but I have not made any
political donations in last 2 years even longer. I declare^d.

5. I hope my country — Australia can go fast
as we can, please don't argue too much! do the
real good job, please! go ahead, Hornsby!

please stop arguing, do it directly! please!!!

6. Hornsby community is waiting new Quarry Road come
soon. because of too busy. I can't write any more.
