Dear Mr Winwood

Elizabeth Drive Subdivision (SSD 8859) – Elizabeth Drive Cecil Park

Thank you for your letter dated 21 January 2019 inviting WaterNSW to comment on the proposed development of the Elizabeth Drive subdivision located at 1111-1141 Elizabeth Drive Cecil Park. It is understood the development involves enabling works for a 14 lot subdivision including civil and road works.

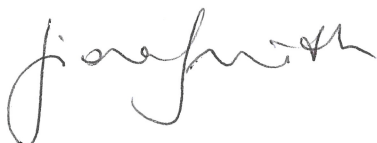

The closest WaterNSW asset is the Upper Canal, which is critical water supply infrastructure conveying bulk water from Pheasants Nest Weir near Wilton to the Sydney Water water filtration plant at Prospect. At Cecil Hills, the Upper Canal is contained within a tunnel located under Elizabeth Drive, Wallgrove Road and the M7. The subject site is located downslope from the Upper Canal corridor.

WaterNSW has reviewed the EIS and supporting documentation, and has assessed the potential for impact on WaterNSW's Upper Canal to be low, and therefore does not have any comments or particular requirements.

WaterNSW requests the Department continue to notify us of proposals with the potential to impact on WaterNSW land, assets or infrastructure, using the email address Environmental.Assessments@waternsw.com.au.

If you have any questions regarding this letter, please contact Alison Kniha at alison.kniha@waternsw.com.au.

Yours sincerely

A handwritten signature in black ink, appearing to read "Fiona Smith", written in a cursive style.
